

JOINT PRESS RELEASE – THE GHANA COMPACT

The Ghana Independent Broadcasters Association (GIBA), Ghana Journalists Association (GJA) and the Private Newspaper and Online News Publishers Association of Ghana (PRINPAG) support the initiative and efforts to create a shared vision for Ghana's development by the Ghana Compact for Political and Economic Transformation.

As a Media Coalition, we appreciate the unique and pivotal position of the media in shaping public opinion and driving national discourse. We are therefore committed to putting our resources at the disposal of the Ghana Compact for awareness creation about the objectives of the Compact, facilitate discussions around its goals and recommendations, while holding the country's leaders accountable for implementing the necessary reforms for our advancement and socio-economic development. We hereby urge our members to as much as possible provide the required attention and media coverage to the activities of the Ghana Compact, ensuring that every Ghanaian gets educated and informed.

We, the Media Coalition, pledge to work with the African Center for Economic Transformation and the seven policy institutes on this important cause, as partners with shared resources to ensure that the Compact's objectives are achieved and that Ghana's political and economic landscape is transformed for the better.

Together, we can build a stronger, more prosperous Ghana for future generations. Let us all unite behind the Ghana Compact and work towards a brighter future for our beloved country.

God bless our homeland, Ghana, and make our nation great and strong.
